WHAT CAN YOU DO WITH VIDATECH STORM?

The cloud-based *Vidatech Storm* application lets users update and manage any of their screens via a web browser. Screen configuration lets you change the display whenever and wherever you want.

Main features:

- Connect live to one of your elevator cabs
- Manage your buildings
- Schedule your first responders
- Manage your platform users
- Manage your *Local callees* and *External callees*
- Manage your products for each building
- Configure your product visuals remotely
- Import and organize your files

*Visual editor page.

YOUR BUILDING'S ACTION WHEEL

You can choose between several actions:

- *Edit* : Edit the building.
- *Change Contractor* : Change the contractor assigned to the building.
- *Download building identity* : Download the building identity.
- *Download configuration* : Download the building configuration.
- *Delete* : Delete the building.

1.3 MANAGING YOUR RESPONDERS

Create your emergency call responders and manage their availability schedule.

The screenshot displays the 'ELEVATOR MECHANICS MANAGEMENT' interface. On the left is a dark sidebar with navigation options: BUILDINGS, MECHANICS (selected), USER, and LOCAL CALLEES. Below the sidebar, a user profile for 'Hi, Louis- philippe' is visible, along with a language selector set to 'FR' and the 'VIDA TECH' logo. The main content area features a table with the following columns: Name responder, Phone, Sunday, Monday, Tuesday, Wednesday, Thursday, Friday, Saturday, and Actions. The table contains four rows, each representing a responder named 'Pierre Lemieux' with phone number '4184764802'. The availability schedule for each responder is: Sunday (8h - 12h, 13h - 16h), Monday (8h - 12h, 13h - 16h), Tuesday (8h - 12h, 13h - 16h), Wednesday (8h - 12h, 13h - 16h), Thursday (8h - 12h, 13h - 16h), Friday (Congé), and Saturday (Congé). Each row has a gear icon in the Actions column.

*Page for emergency call responders.

By creating a responder, manage his schedule over a week.

The screenshot shows the 'CREATE A RESPONDER' modal window. It has a dark header with the title 'CREATE A RESPONDER' and a close button. The form contains the following fields: 'Name' (filled with 'Pierre Lemieux') and 'Phone number' (filled with '4184764802'). Below these is a section titled 'Set a schedule for each week' with a scrollable list of days. Each day has a 'Not available' checkbox (all are unchecked) and a time selection interface with 'Start' and 'End' time pickers (both set to '09h00' and '17h00' respectively) and a '+' button. At the bottom right of the modal is a green 'Create' button.

*Responder creation window.

1.4 MANAGE YOUR USERS

Invite and manage platform users. Grant them the right role to give them the right access.

The screenshot shows the 'USER' management page. On the left is a dark blue sidebar with navigation options: BUILDINGS, MECHANICS, USER (highlighted), and LOCAL CALLEES. Below the sidebar is a user profile for 'Hi, Louis- philippe' and a language selector set to 'FR'. The main content area has a header 'USER' with an 'Invite a user' button and a plus icon. Below is a table with columns: Name, Email, Organization, Role, and Action. One user is listed: Camille Langlois, email camille.langlois@vidatech.ca, Organization Owner, Role Collaborator, and an Action gear icon.

| Name | Email | Organization | Role | Action |
|------------------|------------------------------|--------------|--------------|--------|
| Camille Langlois | camille.langlois@vidatech.ca | Owner | Collaborator | |

*Platform user page.

1.5 YOUR LOCAL CALLEES

Add "local callees". Modifications must be saved before changing page.

The screenshot shows the 'LOCAL CALLEES' management page. The sidebar is identical to the previous page. The main content area has a header 'LOCAL CALLEES' with 'Save' and 'Add a call' buttons. Below are two call entry cards, labeled 1 and 2. Each card has fields for Phone number (101), Link email (camille.langlois@vidatech.ca), and Link number (xxx-xxx-xxxx). Below the cards is a 'SETTINGS' section with a 'Ring time (seconds):' field set to '00 sec.'.

*Local callees page.

2. PRODUCT SECTION

2.1 YOUR PRODUCTS

Create your products to be found in the building.

| Address | Name | Model | Visual link | Status | Actions |

ACTION WHEEL FOR YOUR VISUAL

You can choose between several actions:

- *Edit* : Edit the visual on your screen via the editor page.
- *Duplicate* : Duplicate the visual.
- *Share* : Share the visual with another building.
- *Add schedule* : Apply a publication schedule to the visual.
- *Publish* : Publish the visual to update any changes made.
- *Delete* : Delete the visual.

2.3 EDIT YOUR VISUAL

By creating a new visual or editing an existing one, you arrive at this visual customization page.

*Editor page with a blank visual.

1. SCREEN PAGES

This section lists all the configuration pages for your screen. Create as many pages as you need and select the one you wish to work on.

2. SCREEN CONTENT

All the content you add to the screen of the selected page is listed in this section. Here you'll find your background, images, playlists, buttons, widgets, text and position indicator.

3. ADD CONTENT

Use the button, **Add content** **+**, to select the type of content you wish to add to your screen: background, images, buttons, widget, position indicator, text and playlists.

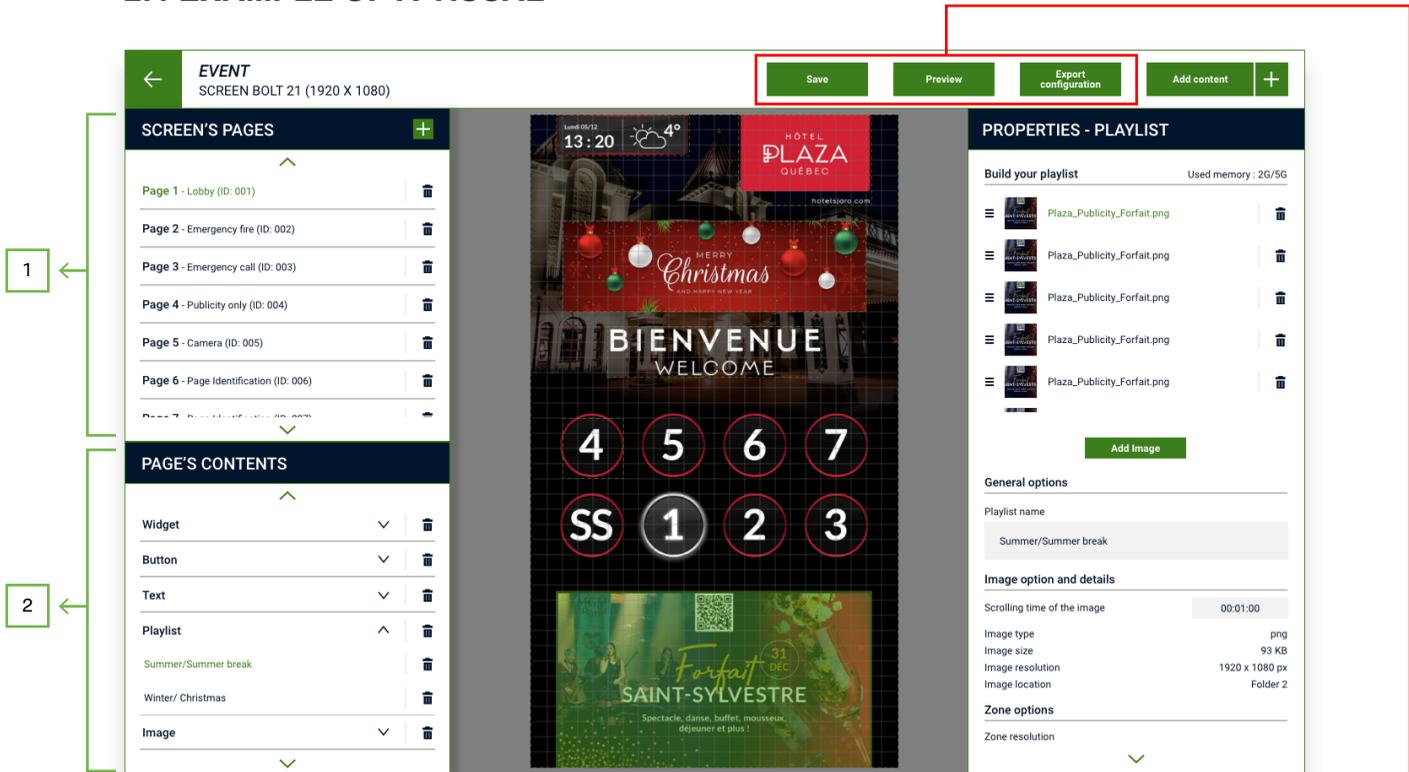

4. CONTENT PROPERTIES

Depending on the type of content you've selected, you'll find its editing properties on the screen preview or in the "screen contents" section.

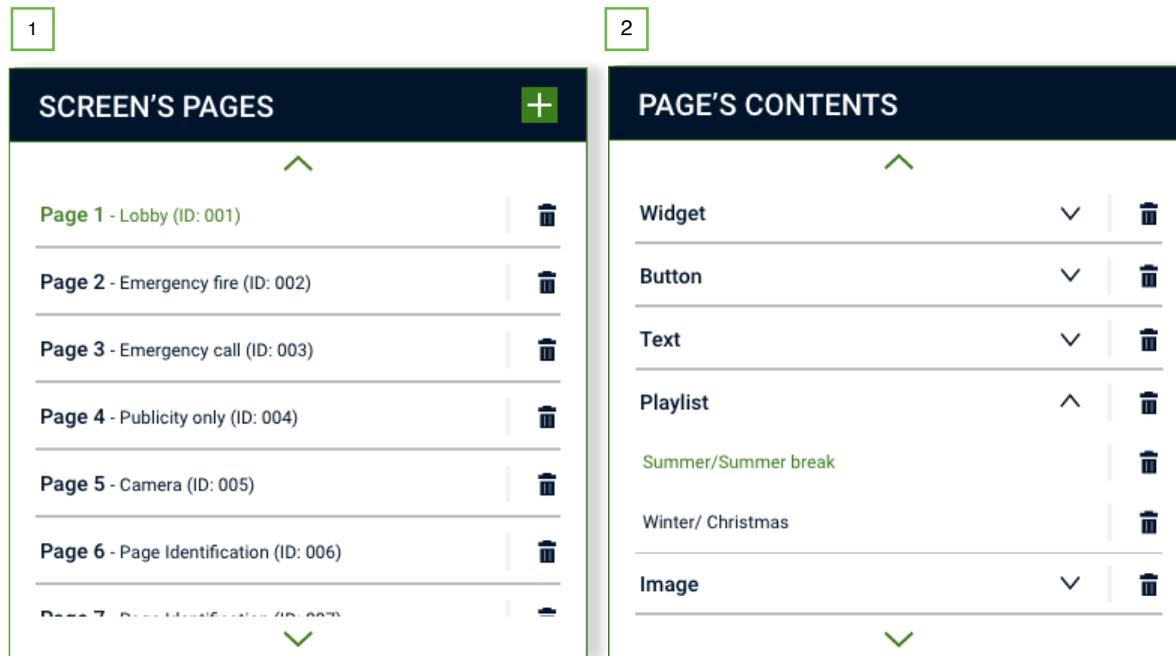

5. SCREEN AREAS

This area gives you an overview of your screen in real time. Here you can select previously created content and move it manually.

2.4 EXAMPLE OF A VISUAL

*Editor page for the "Event" visual.

*Screen pages.

*Screen contents

Export configuration to import it via USB key to a product.

Watch a simulation of your screen in real time.

Save the changes you've made to your visuals and publish them later in your linked products.

2.6 LINK YOUR VISUAL TO A PRODUCT

To have your visual published and displayed on your product's screen, link it to your product. To do this, go to the “Products” page.

*Page of products in the building.

Go to the product action wheel and select *link visual*. A window will open and all you have to do is select the visual you wish to be displayed.

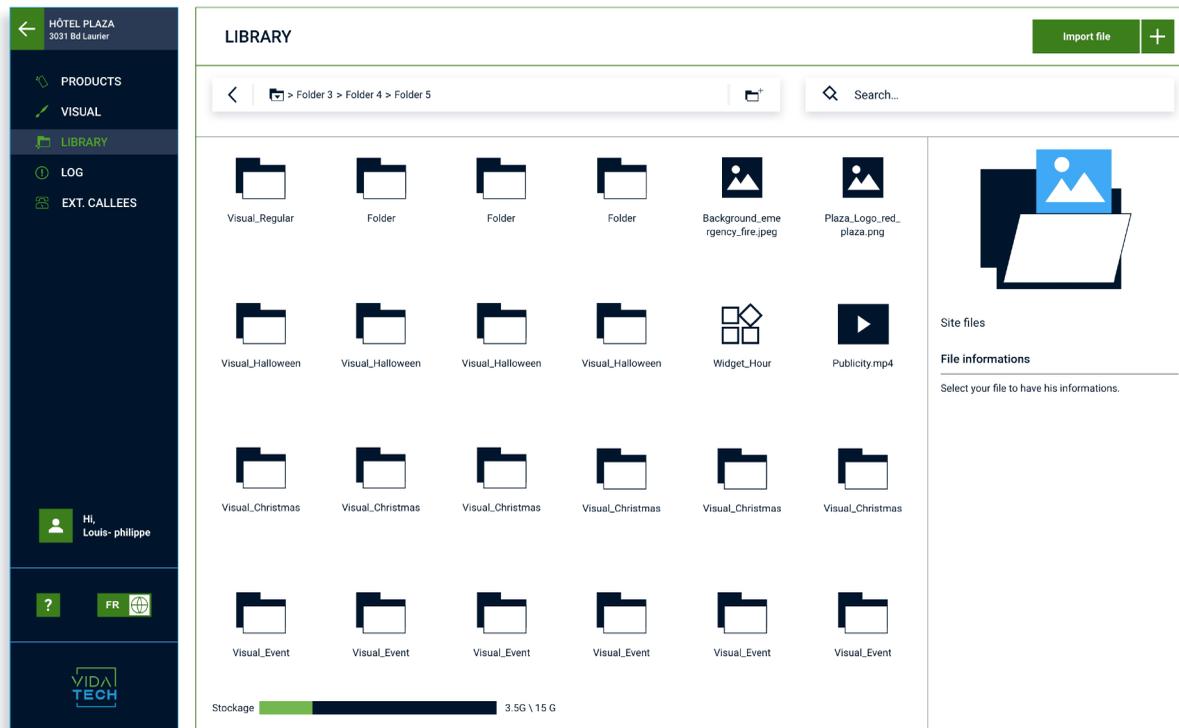

*Product action wheel.

*Window to link a visual to a product.

2.7 YOUR LIBRARY

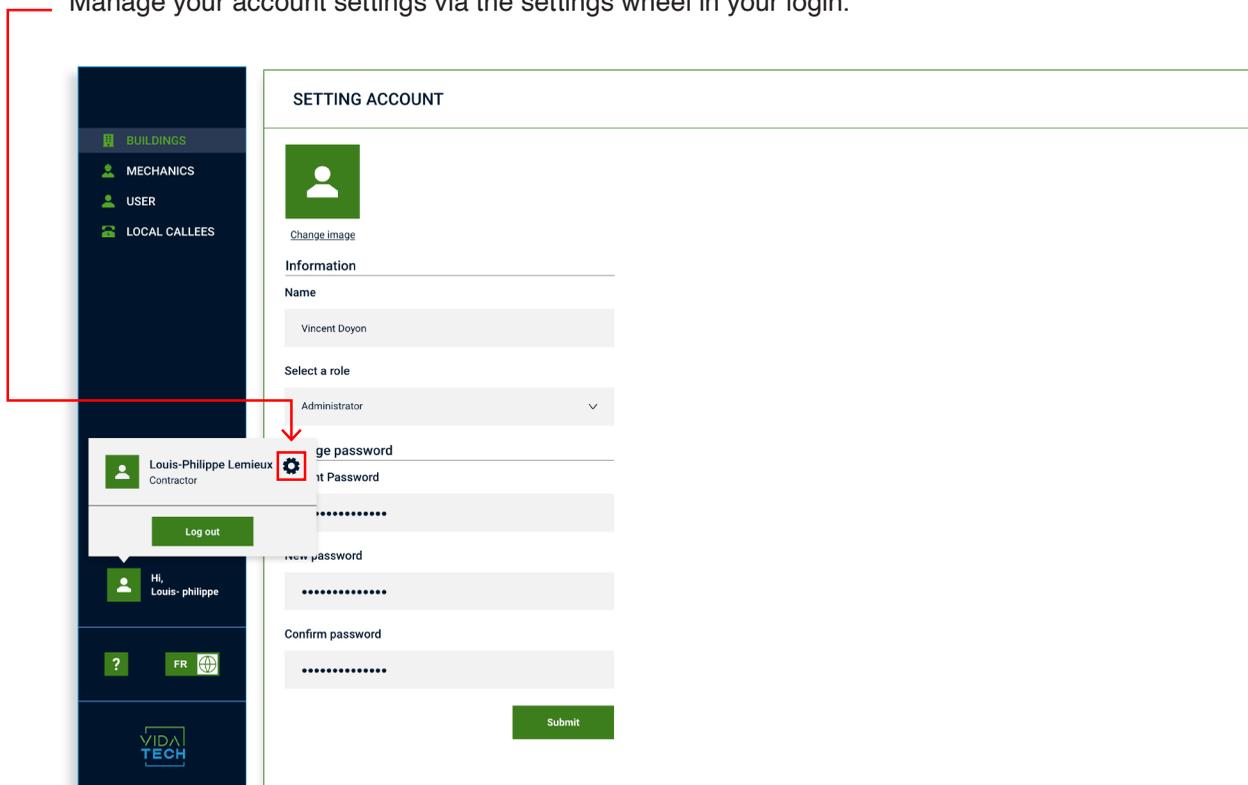

Store all your files (images and videos) in your library and organize them into folders. Click on a file to preview it and access the information displayed on the right.

*Platform files library page.

2.8 ACCOUNT SETTINGS

Manage your account settings via the settings wheel in your login.

*Your log in parameters page.

2.9 EXTERNAL CALLEES

Store all your files (images and videos) in your library and organize them into folders. Click on the files to access their bass information.

The screenshot displays the 'EXTERNAL CALLEES' management page. On the left is a dark sidebar with navigation links: PRODUCTS, VISUAL, LIBRARY, LOG, and EXT CALLEES (highlighted). Below the sidebar, a user profile shows 'Hi, Louis- philippe' and a language selector set to 'FR'. The main content area is titled 'EXTERNAL CALLEES' and features a 'Save' button and an 'Add a call +' button. It contains four external callee cards, each with a menu icon, a trash icon, and a refresh icon. Each card displays the following information: Phone number: 101, Link email: camille.langlois@vidatech.ca, and Link number: xxx-xxx-xxxx. Below the cards is a 'SETTINGS' section with a 'Ring time (seconds):' field set to '00 sec.'.
