

F1021 – CANBus 10” LCD indicator with gong

Installation manual

- Supply must be between 16VDC to 30VDC.
- Must be installed at landings.
- Press “ENTER” to go the main menu of the LCD, then navigate with “UP/DOWN” switches. Refer to the operation manual on our website.

IMPORTANT

1. Select the floor address with dipswitch S1.
2. Activate GONG dipswitch to hear the gong when the elevator reaches the floor.
3. If you have external arrival arrows, then you need to activate the NOARR dipswitch to remove the Red/Green arrow from the LCD screen.

- Status LED :

Status LED	Description
Steady	No communication
Slow Blink	System error
Fast Blink	Communication active with no error

- Switch setting :
